Pro Planet Proof

The products of Pro Planet Proof* are provided with a QA-CER certificate. This certificate was obtained through audits conducted both internally and externally. The QA-CER certificate shows that this product contains 100% recycled materials. The Turbomix™ Paddles XL are made of 100% recycled polypropylene; this is a post-industrial, recycled raw material. PIR is a raw material made from the waste that is created within the industry.

The waste is collected and sorted by type. The sorted varieties are then shredded into granules; these granules are used in the 100% recycled materials of our Turbomix™ Paddles XL. Besides the product itself the box is also made from recycled cardboard and is 100% recyclable up to 26 times. The Pro Planet Proof boxes are flexo printed with water-based ink, which makes the print also more sustainable than regular prints.

*Pro Planet Proof. The word mark 'PRO PLANET PROOF' is used by EMM within its Colad and Hamach brands and has no relationship whatsoever with the quality label 'On the way to PlanetProof' registered by SMK.
